

Why are you attending this conference?

Which sectors are in the audience?

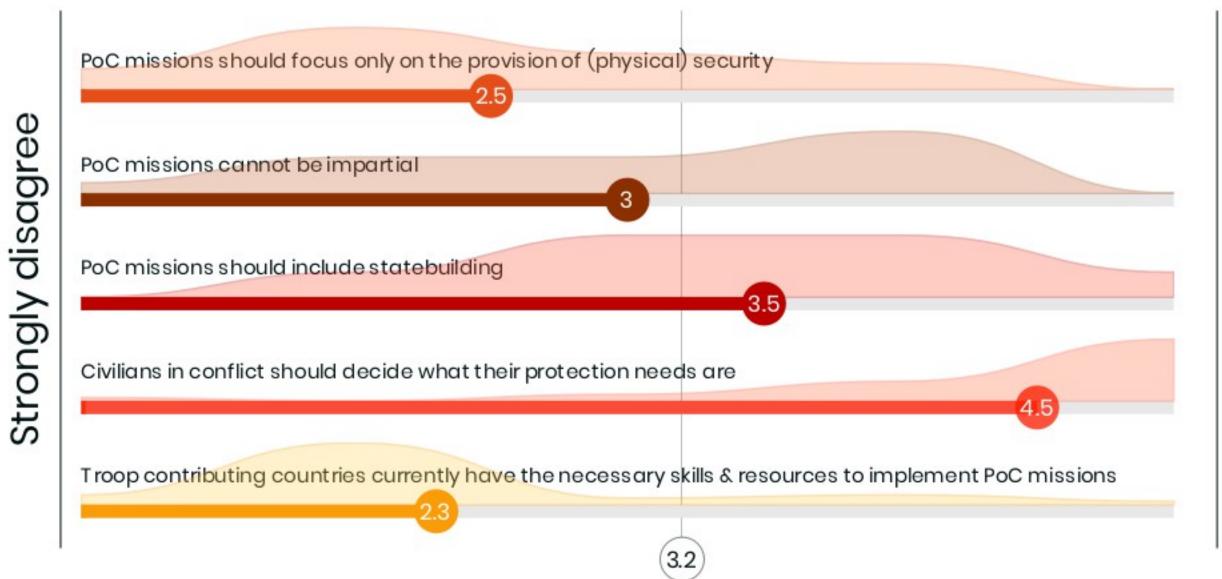

What are the main challenges for the Protection of Civilians in three words?

The goals and visions of PoC missions

What PoC challenges deserve more focus?

- Lack of capability
- 2 Lack of resources
- Lack of political will
- Lack of accountability
- Lack of local perspectives
- Lack of integration

Key takeaway or learning points

The importance of shared and clearly defined goals and strategy across actors involved in PoC

Common understanding

Together we can do more on PoC

Shared responsibility

Improved training is key for an integrated PoC approach

Different threats have different solutions

Reality versus policy

Perception of threat determines how effectiveness is assessed There is a lot of opportunity to improve protection of civilians in practical terms

Problem definition is key for moving forward

There is no strong vision on prevention of conflicts

Perceptions of protection -for whom and by whom- are pivotal

Putting community engagement in practice through innovative tools Integration and political accountability

Evidence can be useful in informing decision-making, but faces barriers due to institutional cultures and bureaucratic structures

Collaboration is key

Need to translate emerging PoC policies into practical training modules and operational guidelines

A proper understanding of the local circumstances should inform both politica land tactical decisions

Political interests are key

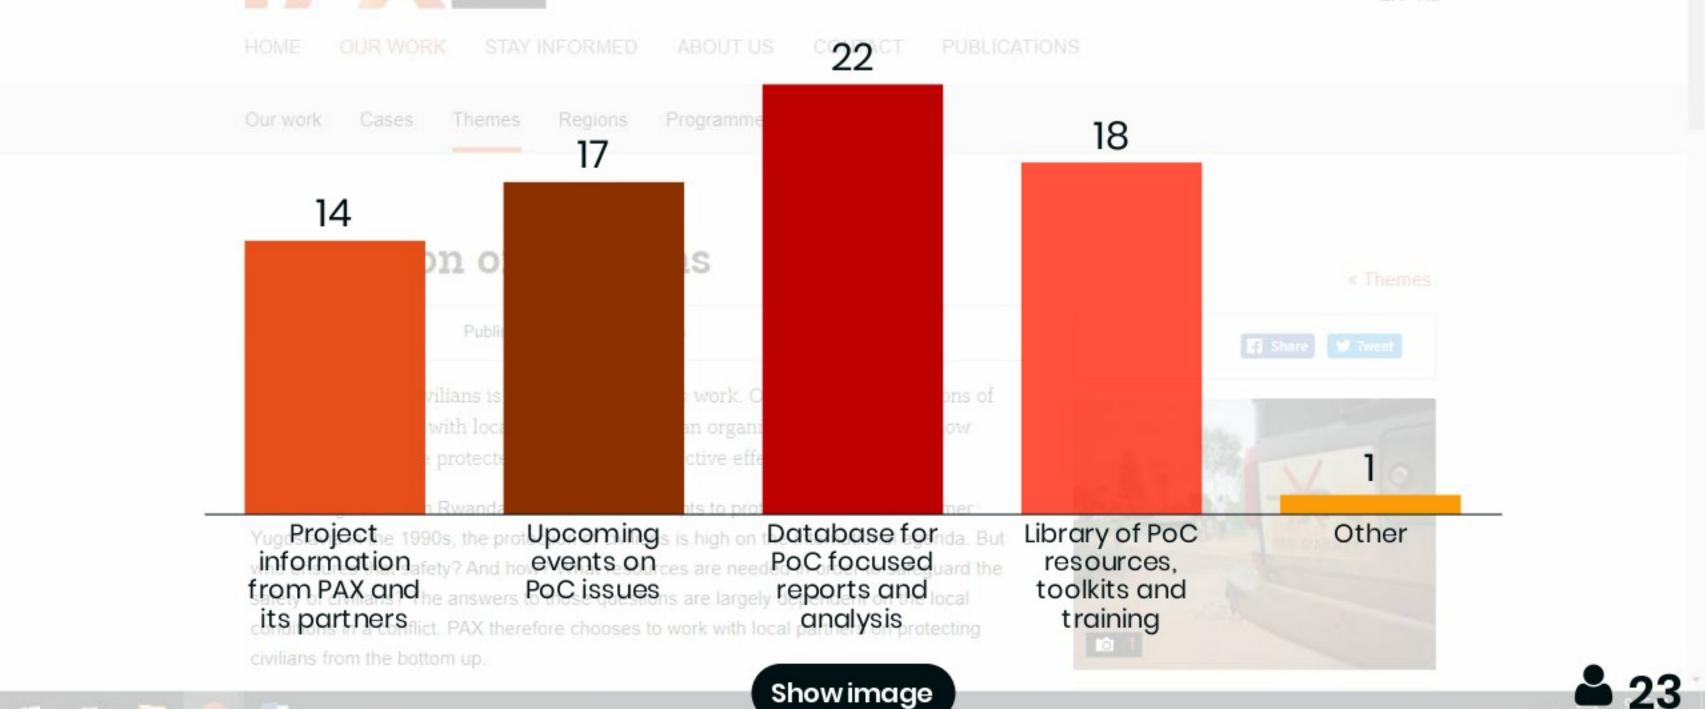

Still a long road ahead, have to make it workable in the field. Translate goals to actions Difficulty of goals and how to get there

Lessons learned from UN PKOs should be captured in a systematic way

What would be a good use of our website?

How would you evaluate today?

Stimulating. Good conversations and thought provoking presentations

Useful

Insightful, interesting topic, how will we get every stakeholder on the same page to get to that common goal?

Practical

Very informative, open exchange on practical approaches to PoC by a varied group of experts

Great presentations

Insightful

A great practical meeting of pragmatic minds

Interesting, meeting people from different professions

Great group and event. Presentations in breakout groups could be shorter to give more time to discussions

Informative, challenging, inspiring

Intense and useful. Too short in some cases to go in-depth

Interesting group of people

Productive and practical

Useful for contributing to consensus building on challenges and opportunities to improve and translate concepts into effective policies

Learned a lot and met interesting people, very useful High expertise and candor, useful opportunity for sharing difficult questions, lessons learned, and potential creative solutions

Interesting group of people

Awesome!

Good discussions and conversations about the importance of an integrated approach in PoC

Multileveled

Useful experience for gaining both a more general understanding and indepth knowledge

Very good interaction

Excellent. More practical examples and case studies could have been useful

We are more alike than we think

We have to work from the heart
