

# Human Security Survey

## Jonglei State

### South Sudan — Nov 2016

**80%**

Percentage of households victim of at least one security incident in the previous year

#### MOST FREQUENTLY REPORTED INCIDENTS

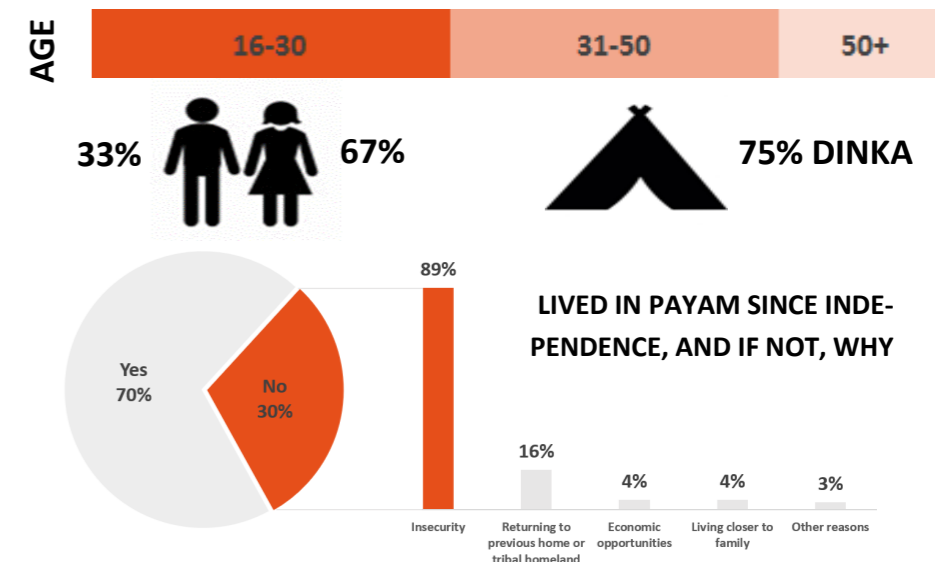

(% OF 850 HOUSEHOLDS)

- 52%** Murder/attempted murder
- 27%** Abduction/enforced disappearance
- 26%** Cattle raiding
- 18%** Assault with a weapon
- 16%** Robbery
- 11%** Being forced to flee

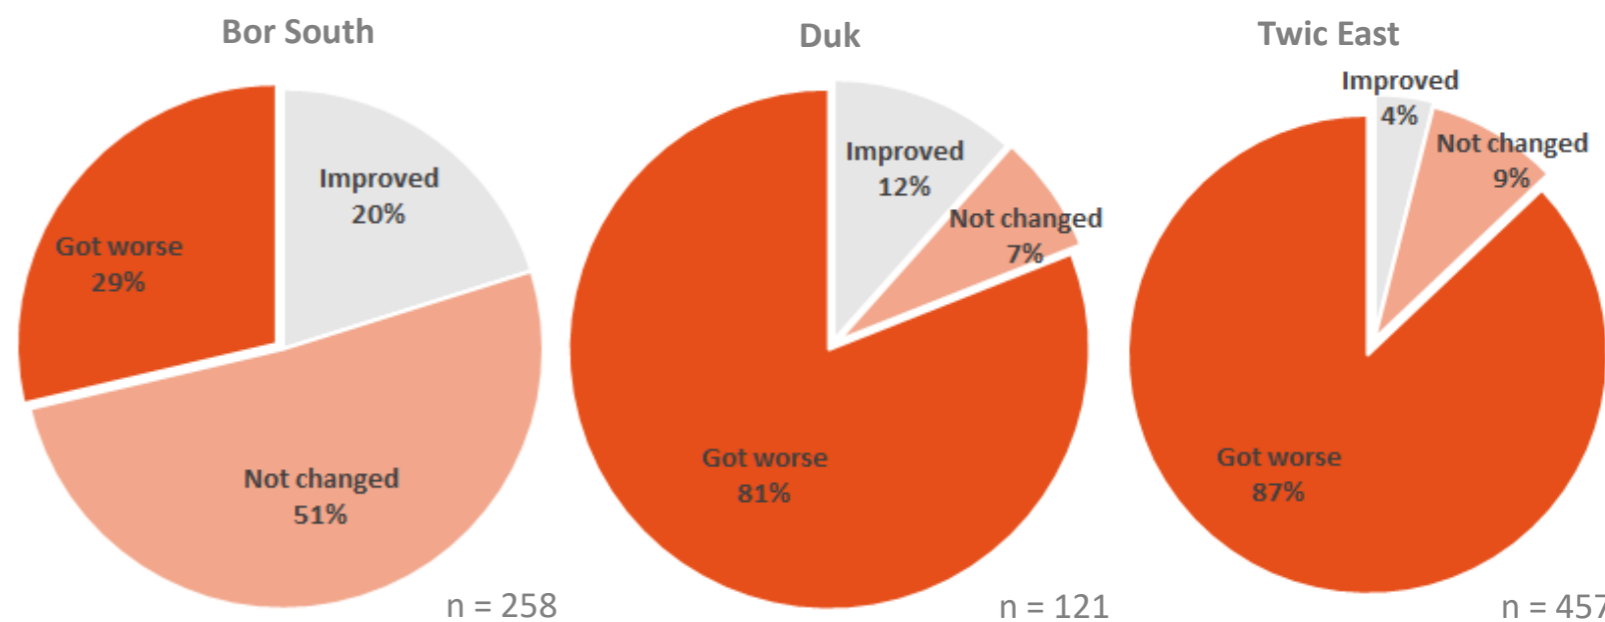

The **HUMAN SECURITY SURVEY (HSS)** is a methodology developed by PAX to collect data and facilitate dialogue about civilians' experiences and perceptions in situations of conflict. The purpose is to increase the understanding of local security dynamics and trends; enhance the 'claim-making capacity' of civilians to identify their priorities and hold security providers and decision-makers accountable; and enable international stakeholders to design and implement protection activities that reflect local priorities and experiences using evidence-based advocacy. PAX implements all aspects of the HSS in South Sudan in close collaboration with its local partner, the **SOUTH SUDAN ACTION NETWORK ON SMALL ARMS (SSANSA)**.

The survey in Jonglei took place over 3 weeks in November 2016 where **850** surveys were collected across three counties. Surveyed areas were selected in cooperation with the local partner on the basis of geographical and security-related access. Within the area clusters, households and individual respondents were selected using an approximately random procedure to allow for some generalizability.

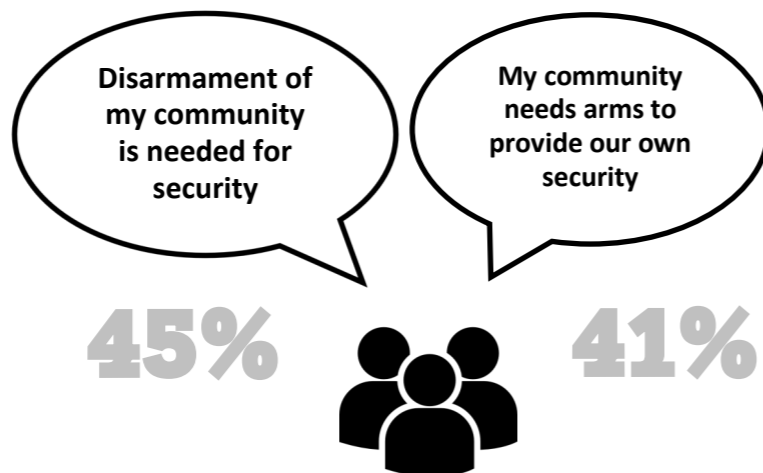

### HSS Respondents

#### HOW DID YOUR PERSONAL SECURITY SITUATION DEVELOP IN THE LAST YEAR?

#### WITH WHICH STATEMENT DO YOU AGREE MOST?

#### PERCEPTIONS OF SECURITY

	AGREE	DISAGREE
I generally feel safe from violence in this community	<b>33%</b>	<b>64%</b>
In my payam we trust local armed youth for our security more than any outsiders	<b>75%</b>	<b>21%</b>
UNMISS is actively working to protect or support people in this payam	<b>7%</b>	<b>74%</b>
The police take reports from community members seriously and are helpful in resolving them	<b>74%</b>	<b>20%</b>

**75%**

Percentage of respondents reported that the police has a regular presence in their payam

Percentage of respondents who think that their community needs more police presence to provide security

**62%**
