HUMAN SECURITY SURVEY METHODOLOGY

During 3 weeks in December 2022, **14** enumerators conducted **576** face-to-face interviews across 2 counties of Central Equatoria (**Terekeka County, Juba County**) using a standardized survey script. For more details on how HSS data is collected and analyzed, view our [methodological note](#).

PAX will engage further with representatives from Juba and Terekeka counties to present, validate and discuss the survey results, in order to formulate an action plan to improve the local security situation.
