

Human Security Survey

Jubek State, South Sudan

— July 2017

SUMMARIZED FINDINGS

61%

of households were victim of at least one security incident in the previous year

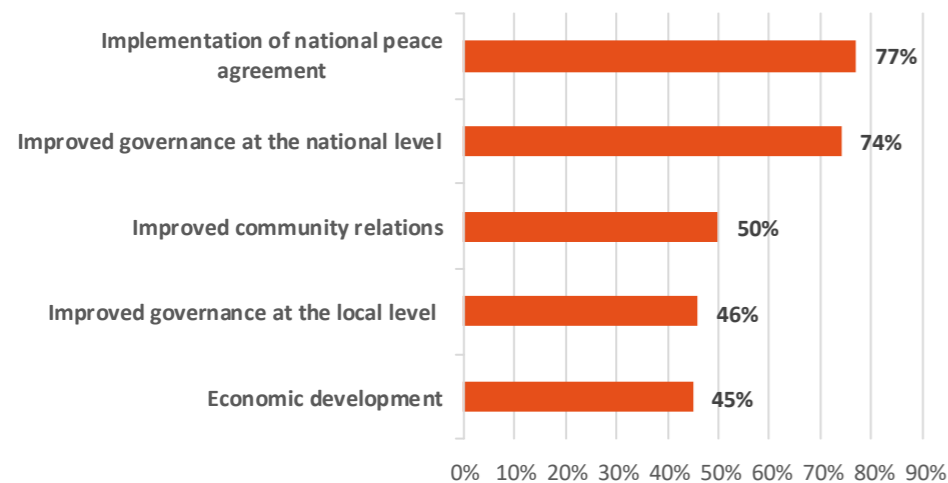

82%

of respondents agree that disarmament of their community is needed for security

72%

agrees dispute resolution between communities is best handled by local elders or chiefs

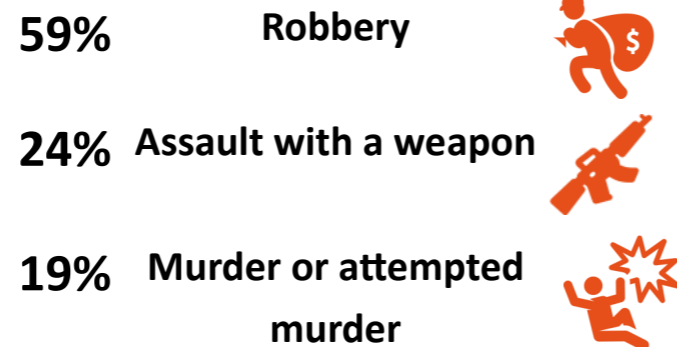

WHAT DO YOU THINK ARE THE MOST VIABLE SOLUTIONS FOR LASTING PEACE IN YOUR COUNTY?

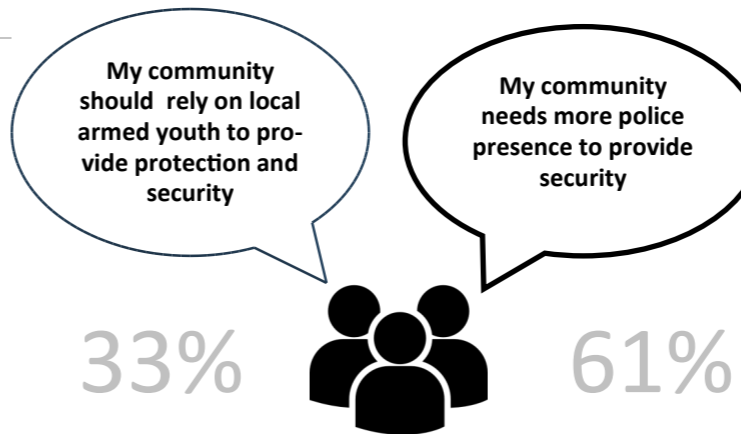

The **HUMAN SECURITY SURVEY (HSS)** is a methodology developed by PAX to collect data and facilitate dialogue about civilians' experiences and perceptions in situations of conflict. The purpose is to increase the understanding of local security dynamics and trends; enhance the 'claim-making capacity' of civilians to identify their priorities and hold security providers and decision-makers accountable; and enable international stakeholders to design and implement protection activities that reflect local priorities and experiences using evidence-based advocacy. PAX implements all aspects of the HSS in South Sudan in close collaboration with its local partner, the **SOUTH SUDAN ACTION NETWORK ON SMALL ARMS (SSANSA)**.

The survey in Jubek State took place over 3 weeks in July 2017 where **525** surveys were collected in Rejaf and Mangalla counties. Surveyed areas were selected in cooperation with the local partner and the enumerators on the basis of geographical and security-related access. Within the area clusters, households and individual respondents were selected using an approximately random procedure to allow for some generalizability.

MOST FREQUENTLY REPORTED INCIDENTS (% OF 525 HOUSEHOLDS)

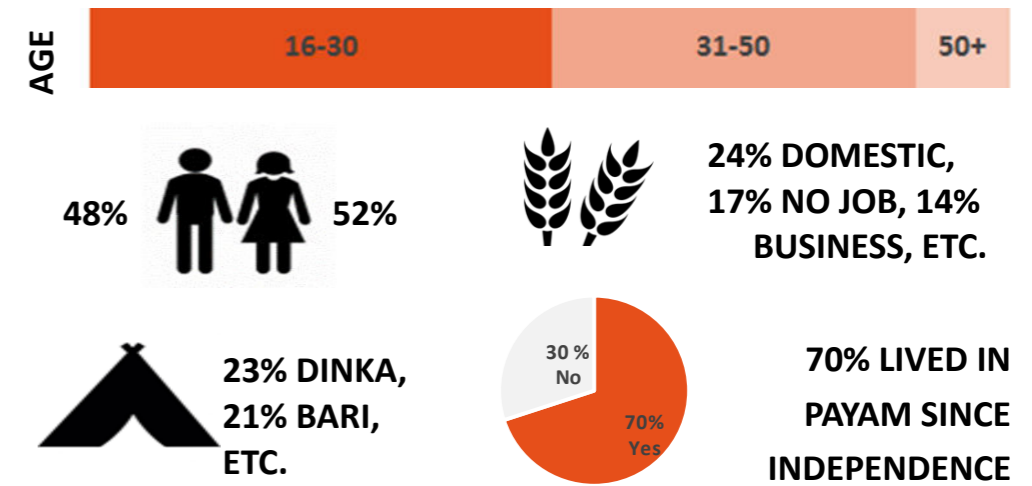

WITH WHICH STATEMENT DO YOU AGREE MOST?

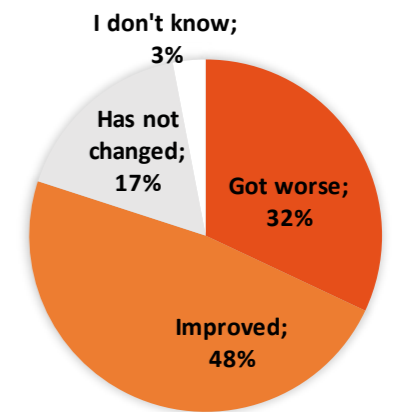

PERCEPTIONS OF SECURITY

Statement	AGREE	DISAGREE
In my payam we trust local armed youth for our security more than any outsiders	37%	53%
The main source of conflict in our payam is bad relationships between communities	75%	18%
UNMISS is actively working to protect or support people in this payam	28%	52%
Disarmament of our weapons in the payam would reduce violence and crime	86%	7%
The police take reports from community members seriously and are helpful in resolving them	74%	20%

HSS Respondents

HOW DID YOUR PERSONAL SECURITY SITUATION DEVELOP IN THE LAST YEAR?

n = 525

79%

Percentage of respondents reported that the police has a regular presence in their payam

% of respondents mentioning 'poverty, hunger and rising prices' as main factor likely to cause conflict in the next year (most mentioned)

86%
